

Why Choose PTA?

Learn Basics + Value Added Skills

Learn finance like a pro, starting from the basics. Gain industry-relevant skills from experienced CAs and finance professionals. Whether you're beginning your finance career, aiming to advance, or a housewife seeking to contribute to family business, PTA boosts your finance knowledge and makes you job-ready for top CA firms, banks, NBFCs, and MSMEs.

100% Internship And Job Opportunities

Invest in upskilling now and earn with a course-end internship later. Our tie-ups with top CA firms and companies across India bring internship and job opportunities to you in the remotest corners. All you need to do is pass our eligibility test at the end of the 45-day course.

Reliable Support and Assistance

Throughout the course and after it, we will stand by you. There are live classes to clear your doubts and free study material for an added advantage. You'll get all this and more at PTA.

“From The Founders’ Desk

In 2017, we founded Green Growth Consultancy (GGC), a finance firm. With a strong track record of working alongside renowned companies and CA firms worldwide, we identified a significant gap in the availability of well-trained finance people. Recognizing this as an opportunity, we established the Practical Training Academy (PTA) to address the issue and facilitate finance upskilling in India. PTA, our aspirational startup, has garnered recognition from the Hon. PM of India, Shri Narendra Modi Ji.

Having successfully streamlined finance operations for businesses and contributed to the present landscape, we aim to help aspiring finance professionals achieve success through our technology driven and futuristic approach.
